London, UK — Open to Remote

PROFESSIONAL SUMMARY

Senior Fullstack Developer with **6+ years of experience** building high-performance, scalable web applications. Expert in the **React/Next.js** ecosystem and Node.js backend development, with deep experience in cloud architecture (AWS), microservices design, and DevOps. Passionate about clean code, developer experience, and shipping products users love. Track record of **leading engineering teams** and delivering complex systems at scale.

WORK EXPERIENCE

Senior Fullstack Engineer TechFlow Inc.

Jan 2024 - Present

London, UK (Hybrid)

Leading development of core product platform serving 500k+ users. Architecting migration from monolithic Rails app to Next.js + Node.js microservices.

- ▶ Reduced page load time by 60% through SSR optimization and edge caching strategies
- ▶ Led team of 5 engineers — introduced code review culture, CI/CD best practices, and agile sprint planning
- ▶ Built real-time notification system handling 1M+ daily events with 99.9% delivery rate via Redis Streams
- ▶ Designed multi-tenant PostgreSQL schema and row-level security model for enterprise tier clients

Next.js TypeScript Node.js PostgreSQL Redis AWS Docker

Fullstack Developer Nexus Labs

Mar 2022 - Dec 2023

Remote (US Company)

Full-stack development for a Series B HR-tech SaaS startup. Built core product features from conception through to production deployment.

- ▶ Architected and shipped candidate tracking system used by 200+ enterprise clients — zero to launch in 6 months
- ▶ Improved test coverage from 12% to 87% using Jest, Cypress and Playwright — cut regression rate by 65%
- ▶ Built AI-powered resume parsing feature using OpenAI API, cutting manual review time by 70%
- ▶ Migrated monolithic Express API to microservices reducing deployment complexity and scaling costs by 40%

React Node.js Python FastAPI MongoDB GCP Docker

Frontend Developer PixelCraft Studio

Jun 2020 - Feb 2022

Manchester, UK

Frontend specialist at digital agency delivering web experiences for fintech, healthcare, and e-commerce clients.

- ▶ Delivered 15+ client projects on time across various technology stacks — average client satisfaction 4.9/5
- ▶ Built shared component library reducing new project setup time by 35% across all studio projects
- ▶ Implemented complex D3.js data visualizations and interactive dashboards for major fintech clients
- ▶ Mentored 2 junior developers in React best practices, accessibility, and modern CSS techniques

React Vue.js TypeScript D3.js SASS Storybook

Junior Full-Stack Developer

StartupX

Sep 2018 - May 2020
Manchester, UK

First engineering role at an early-stage fintech startup. Contributed across frontend, backend, and infrastructure as part of a lean 4-person team.

- Built and shipped the company's first mobile-responsive web app from scratch — React + Node.js in 3 months
- Implemented Stripe payment integration processing £500k+ in monthly transactions with zero downtime
- Set up initial CI/CD pipeline using GitHub Actions and AWS, reducing deployment time from 40 min to 5 min

React Node.js Express MySQL Stripe AWS EC2

TECHNICAL SKILLS

Frontend

- React / Next.js 15
- TypeScript
- Tailwind CSS / SASS
- Framer Motion / GSAP
- GraphQL / Apollo / tRPC
- Storybook / Chromatic

Backend & Database

- Node.js / Express
- Python / FastAPI
- PostgreSQL / MySQL
- Redis / BullMQ
- MongoDB / Mongoose
- Prisma / Drizzle ORM

DevOps & Cloud

- AWS (EC2, S3, RDS, Lambda)
- Docker / Kubernetes
- GitHub Actions CI/CD
- Terraform (IaC)
- Linux / Bash scripting
- Vercel / Railway / Fly.io

NOTABLE OPEN SOURCE PROJECTS

FlowBoard Pro

Real-time collaborative project management platform with AI task prioritization. Handles 10k+ concurrent WebSocket connections.

Next.js Socket.io OpenAI Redis

★ 1,240 stars · github.com/alexkarimi/flowboard

DesignSystem UI

Open-source React component library with 80+ accessible, production-ready components with full TypeScript support.

React TypeScript Radix UI

★ 4,200 stars · github.com/alexkarimi/design-system

ShopEngine API

High-performance e-commerce microservices API powering 5M+ monthly transactions at 99.99% uptime SLA.

Node.js FastAPI AWS

★ 892 stars · github.com/alexkarimi/shopengine

DevPulse CLI

Developer productivity CLI integrating GitHub, Jira & Slack. Automated standup reports and sprint metrics in the terminal.

Node.js TypeScript Commander.js

★ 780 stars · npmjs.com/package/devpulse

BSc Computer Science — First Class Honours

University of Manchester

September 2014 – June 2018

Best Dissertation Award — Research on distributed Raft consensus algorithm implementation. Founded university coding club, growing to 120+ members. Industrial placement year at IBM Research.
