

HUSSAIN MURTAZA

Full Stack Developer

Karachi, Pakistan | +92 337 7776853 | hussainmurtaza5222@gmail.com | linkedin.com/in/hussain-m-b3ab17404 | github.com/hussainmurtaza786 | portfolio-tan-iota-17.vercel.app

SUMMARY

Full Stack Developer with 2.5 years of hands-on development experience gained through a long-term internship at SyntaxFit. Experienced in building responsive web applications using Next.js, React.js, TypeScript, Node.js, and PostgreSQL. Worked on real-world client projects, REST API development, CMS integrations, and production deployments. Familiar with AWS and Firebase and currently pursuing a BS in Computer Science.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Redux, HTML5, CSS3, Tailwind CSS, Chakra UI

Backend: Node.js, REST APIs, JWT Authentication, Payload CMS

Databases: PostgreSQL, Prisma ORM, Neon DB

Deployment & Tools: Vercel, Netlify, GitHub

EXPERIENCE

Full Stack Developer Intern | Sep 2023 — Nov 2025

SyntaxFit, Karachi, Pakistan

- Progressed from learning web development fundamentals to independently delivering full-stack web applications.
- Developed responsive applications using React.js, Next.js, and TypeScript.
- Built backend services and REST APIs using Node.js, PostgreSQL, and Prisma ORM.
- Integrated Payload CMS solutions for client content management.
- Participated in client projects from requirements gathering through deployment.
- Successfully deployed production applications using Vercel.
- Collaborated with senior developers on business-focused software solutions.

PROJECTS

Food Zilla — Food Ordering Platform

food-zilla-alpha.vercel.app | Next.js, Redux, Prisma, Neon DB

- Built a responsive food ordering web application with clean UI
- Developed an admin dashboard to manage food items and orders
- Implemented CRUD operations for menu management (add, update, delete items, pricing)
- Integrated real-time UI updates for dynamic data changes
- Used Redux for centralized state management across the application
- Designed and connected PostgreSQL database using Prisma ORM (Neon DB)

POS System — Point of Sale Application

pos-app-seven-ochre.vercel.app | Next.js, Redux, Prisma, Neon DB

- Developed a responsive POS system with dashboard-based inventory management
- Built real-time sales tracking with daily, monthly, and yearly profit analytics
- Implemented expense management with automatic profit calculation after deductions
- Enabled inventory control features including product tracking and stock updates
- Developed report generation with downloadable sales and profit reports (date range filter)
- Used Redux for state management to ensure consistent data flow across modules

Technobots53 — Business Website

technobots53.com | Next.js, Payload CMS

- Developed responsive business website UI using Next.js and Payload CMS
- Built complete frontend interface in collaboration with a development team
- Focused on clean layout, reusable components, and user-friendly design
- Integrated CMS-driven content structure for easy management

MBK & Associates — Business Website

mbkandassociates.com | Next.js, Payload CMS

- Built full frontend UI for a professional business website using Next.js and Payload CMS
- Worked as part of a team to deliver a production-ready client project
- Developed responsive and structured UI components for seamless user experience

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Indus University, Karachi | 2025 — Expected 2029

Jinnah Government College

Karachi | 2023 — 2025
